SUMMARY

A passionate 4th-year Computer Science student dedicated to developing appealing, creative, and user-friendly projects. Actively seeking job opportunities to apply my skills in real-world applications and contribute to innovative solutions.

EXPERIENCE

Full-Stack Developer, Herkings Corporation **Sept 2025 - Present**

- Developed and maintained full-stack web applications to support business operations and improve user experience.
- Optimized system workflows and implemented efficient solutions

PROJECTS

Full-Stack Developer, Sari-Sari Events **event.sari-sari.com**

- Assisted in building and enhancing responsive Event Management System using modern front-end and back-end technologies.
- Participated in debugging, testing, and deploying features to improve system performance and reliability.

Full-Stack Developer, Dermalytics **www.dermalytics.online**

- Designed and developed scalable full-stack solution for skincare and analytics-based application.
- Integrated APIs, managed databases, and ensured seamless communication between front-end and back-end systems.
- Collaborated with the development team to deliver a secure, user-friendly, and high-performing digital product.
